

READY TO SHAPE THE FUTURE OF FILM PRODUCTION TECHNOLOGY?

Join Pomfort Software as:

Software Developer (m/f/d) for Mac Software in the Field of Film Production Technology

Location: Central Munich (Maxvorstadt)

Start Date: Immediate (spring/summer 2021)

Pomfort is a leading developer of software solutions for the global film industry. Our innovative desktop software and cloud services are tailored to professional filmmakers' needs and enable efficient workflows from the film set through to post-production. From cinema blockbuster to Netflix series, commercials, and documentaries - Pomfort Software helps bring stories to life.

To keep shaping the future of film production technology, we are looking for you! As a member of our international and highly agile development team, you can immerse yourself in the world of professional film production technology and quickly implement your own ideas.

WHAT YOU'LL DO:

- **Expand** our existing software products using the latest technologies
- **Integrate** new high-end film cameras and on-set hardware
- **Design and implement** the user interaction for new features in direct cooperation with our design and product management team

To give you a better idea of your future tasks, here are some recent developments our team has been working on:

- Implementation of an interactive user interface for the visualization and control of hardware on the film set
- Extension and optimization of our recording engine for the automatic recording of as many parallel camera video signals as possible
- Implementation of a new user interface for individual cataloging and filtering of large amounts of video clips
- Development of optimized graphic shaders for our color correction system based on Metal and OpenGL
- Framework for the continuous upload of new clip metadata from the desktop applications into our cloud system via REST-API

WHAT WE'RE LOOKING FOR:

- Professional experience in software development
- In-depth knowledge of at least one object-oriented programming language (e.g., C ++, Java, Objective-C, Swift)
- Excitement for working with new technologies
- Strong communication and team-working skills
- Independent and solution-oriented way of working

Helpful additions: Experience with Objective-C or Swift on mac or iOS, experience with user interface development or image processing, interest in film production processes

WHAT MAKES WORKING AT POMFORT UNIQUE:

- In a successful company, you will develop professional software and services with us that are enthusiastically used by filmmakers around the world.
- A highly interesting and diverse area of responsibility as well as insights into all steps from product design to development and release.
- You work with the latest Mac of your choice in an attractive office right in the center of Munich.
- If you wish, you have a wide range of options for optimizing your salary, such as subsidies for commuting expenses, meal vouchers or job bike leasing.

APPLICATION PROCESS

Sounds like your next career step?

We're looking forward to hearing from you! Please email your application documents (written in English or German) to:
